The testing of the wall material of the hoses used were in accordance with the above FDA regulations with the exclusive use of dry and solid foods that are free from oil and grease on their surface. This confirmation applies to the wall of the product supplied by us and its use as specified. The conformity test of the hose wall was made according the o.g. rules; thereafter, the wall of the product complies with the legal requirements in accordance with the specified food contact conditions in accordance with o.g. FDA regulations.

In addition, the above tests are based on the assumption that the chemical composition of the product is not altered by the addition of other unregulated substances and that the food contact surface is manufactured and used in accordance with standard manufacturing practices. Please refer to paragraph (b) of FDA Regulation 21 CFR 174.5 and the general provisions for indirect food additives listed there.

This declaration is valid for the product delivered by us and its use according to the specifications. The conformity assessment was carried out in accordance with the regulations specified above; according to that and under consideration of the food contact conditions specified, the product complies with the legal requirements; if used for purposes other than those specified, the user will be responsible for the conformity and suitability tests.
